

# Pacific citizens

## Find out!

### Prevention

Pressing health problems – from blindness prevention to HIV AIDS prevention – need comprehensive solutions.

### Cure

Business should be encouraged to supply healthy foods at affordable prices, and be discouraged from supplying fatty foods.

### Individual, community

Individuals often suffer diseases because of the economic problems of society.

### Isolation

Cataracts remain the leading cause of blindness throughout the world, including the Pacific – and this Samoan from Savaii has to travel to Apia for another chance of a cataract operation.
